RE: Piping project in Tahitian Gardens

Dear Mr. Kielty:

As you are aware the piping project within Tahitian Gardens in complete. There are a few items we would like to make you aware of.

★ The first thing we want to commend you on is what a professional job your employees performed while on our property. We never experienced any negative feedback from any of our unit owners regarding your employees. They were always courteous, and friendly to anyone who approached them. Brian Milano was always forthcoming with any changes to the schedule and communicated with us quickly and thoroughly. We are more than satisfied with the job your company did for our community.

The second matter is we performed an inspection of the individual shut off and we found that building 54, units F & G did not get replaced. Also building 49, unit E has an in-going water line with a clamp on it from an old temporary repair. We would like this pipe replaced/repaired. We realize this was not part of the piping project.

Lastly, we requested a written summary of the project, such as any recommendations for future undertakings you foresee would be beneficial to our community or any deficiencies in any previous repairs that you discovered.

★ Again, we want to thank you for the professional manner and efficiency your company displayed while working in our community. We would be happy to recommend you to any potential clients in the future if you ever need us.

Sincerely,

Mary Hawes

Mary Hawes, President
